Media Research Group  
Martin Chautari

### Introduction

This is a list of mostly MA/PhD level theses (with a few BA level ones as well) on themes related to various aspects of the Nepali media. It is an incomplete list because it only reflects the holdings of the Martin Chautari Library which has hard copies of all the items listed herein. It is presented in two parts. In Part I, theses done in Nepali universities are listed, first in English and then in the languages of Nepal. In Part II, theses done in non-Nepali universities in English are listed. This list will be updated several times a year. Those who have completed theses relevant to this bibliography that are not listed here are requested to donate a copy of their thesis to MC Library. For further information send an email to [library.asst@martinchautari.org.np](mailto:library.asst@martinchautari.org.np).
