

Books on NGO/ INGOs in Nepal

Rashmi Sheila

Compared to the increasing numbers of NGOs and I/NGOs in Nepal, especially after 1990, the studies and researches being done on them do not seem sufficient. We can find many short writings and articles but very few books on them. This attempt to make a bibliography is just a beginning to make it easier for those who want to do further research on this topic. It only contains entries of the books on NGOs and I/NGOs in Nepal and might not be 'complete' due to limitations of our knowledge and access. This bibliography contains a total of 73 books published by various NGOs, I/NGOs, HMG Nepal and commercial publishers.
